

Presentation: Neurobiology of Learning

Dr. Donald Cameron is a Pediatric Neurologist and currently serves Clinical Assistant Professor of Neurology and Pediatrics at the University of Toledo. He is also the Director of the Children's Neurology Center in Toledo, Ohio.

ABSTRACT

This presentation will give an overview of the design, implementation and impact of Neurobiology of Learning, a required course in the post baccalaureate Intervention Specialist Program that was developed to offer future teachers of Special Education insights into the underlying neurological causes of learning and behavioral challenges experienced in the classroom.
