ABOUT ONE VOICE

One Voice is an organization with a mission: to facilitate positive, critical change in educational processes and policies in 2008 and beyond. The unique strategy at the heart of all One Voice activities and events is to create a hip, fun unusual happening that engages the interest, attention, and participation by every attendee. These are NOT standard or ordinary conferences in any way! They are interactive, working sessions of global peers in education. Thus, every One Voice event is charged with a contagious excitement fostered by the organization and manifested in every attendee. Participants and presenters travel to one Voice events from within the United States and Canada, as well as from 21 other countries.

By jumping on the road with one Voice, as an exhibitor, your message, products, or services will be viewed by attendees as interesting facets of an already pleasing and intriguing experience. One Voice will work with you to provide your organization maximum exposure prior to the event, on-site at the venue and long after as part of monthly communication and outreach to its audience of approximately 20,000 educators world wide.
